Sedimentary Geology

Contents Volume 101, 1996

ExpresSed

REE-activated cathodoluminescence of calcite and dolomite: high-resolution spectrometric analysis of CL emission (HRS–CL)
D. Habermann, R.D. Neuser and D.K. Richter 1

Interpretation of the origin of massive replacive dolomite within atolls and submerged carbonate platforms: strontium isotopic signature ODP Hole 866A, Resolution Guyot, Mid-Pacific Mountains
P.G. Flood, J.A. Fagerstrom and F. Rougerie 9

Settling velocity of ellipsoidal grains as related to shape entropy
J.P. Le Roux 15

Differential compaction and basinward tilting of the prograding Capitan reef complex, Permian, west Texas and southeast New Mexico, USA
A.H. Saller 21

Petrified wood from an unconsolidated sediment, Voervadsbro, Denmark
R. Weibel 31

The whole-rock cerium anomaly: a potential indicator of eustatic sea-level changes in shales of the anoxic facies
P. Wilde, M.S. Quinby-Hunt and B.-D. Erdtmann 43

Short- and medium-term grain size changes in deltaic beaches (Ebro Delta, NW Mediterranean)
J. Guillén and A. Palanques 55

Seismically induced soft-sediment deformation structures (seismites) around Sumdo in the lower Spiti valley (Tethys Himalaya)
R. Mohindra and T.N. Bagati 69

Textural, geochemical and mineralogical evidence for the sources of aeolian sand in central and southwestern Nebraska, U.S.A.
N.R. Winspear and K. Pye 85

Sequence model for coastal-plain depositional systems of the Upper Triassic (Betic Cordillera, southern Spain)
A. Pérez-López 99

Characteristics and genesis of moraine-derived flowtill varieties
T. Zieliński and A.J. van Loon 119

Short Note

Gravel imbrication on the deflating backshores of beaches on Prince Edward Island, Canada
L.H. Tanner 145

Hemipelagic and turbiditic mudstone facies associations in the Upper Cretaceous Gosau Group of the Northern Calcareous Alps (Austria)
H.G. Krenmayr 149

Devonian intra-oceanic arc rift sedimentation—facies development in the Gamilaroi terrane, New England orogen, eastern Australia
J.M.C. Stratford and J.C. Aitchison 173
Depositional models for fluvial sediments in an intra-arc basin: an example from the Upper Cenozoic Tokai Group in Japan
K. Nakayama 193
Cool-water carbonates in an Eocene palaeoestuary, Norseman Formation, Western Australia
J.D.A. Clarke, Y. Bone and N.P. James 213
Sedimentological and geochemical interpretation of a transgressive sequence: the Late Cretaceous Qahlah Formation in the western Oman Mountains, United Arab Emirates
A.S. Alsharhan and S.J.Y. Nasir 227
Zircon typology combined with Sm–Nd whole-rock isotope analysis to study Brioverian sediments from the Armorican Massif
M.P. Dabard, A. Loi and J.J. Peucat 243
A reconnaissance study of carbonates in Mexican beach sands
A. Carranza-Edwards, L. Rosales-Hoz and S. Santiago-Pérez 261

Short Communication
Sediment mineralogy in the Bay of Havana (Cuba): its relation to natural and anthropogenic processes
J.L. Fernández-Turiel, J.S. Chinchón and A. Maldonado 269

Book Review
Tidal Flats and Barrier Systems of Continental Europe: A Selected Overview, by B.W. Flemming and G. Hertweck (Editors) — J.R.L. Allen 275

Contents Volume 101 277
